

AREF AKBARPOUR

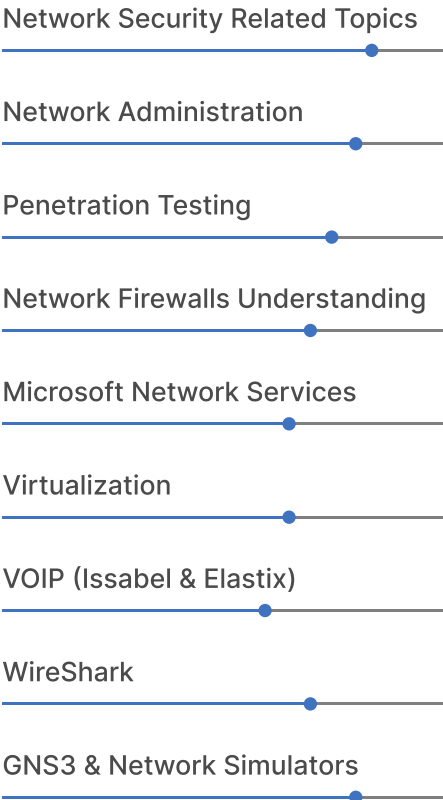

STRATEGIC TECH BRIDGE

Experienced Network Security Consultant with 10 years in securing networks, devices, and Unix-based platforms across multiple layers, including projects with major clients like the Central Bank of Iran. Skilled in network design, troubleshooting, and configuring Cisco, MikroTik, and Huawei equipment. Currently exploring applications of data insurance, Kubernetes, OpenShift, and AI-driven data analysis to enhance cybersecurity and business solutions. Passionate about privacy protection and onion routing technologies, with a strong focus on practical, research-based innovation.
